BRIEF OVERVIEW

- In this lecture the participants will have to systematically analyze and solve MIS (Management Information Systems) and BI (Business Informatics) related problems in small teams. The carried out work, the conclusions and discussions need to be documented either in form of a seminar paper or a Bachelor Thesis.
- The students are expected to apply their acquired MIS and BI knowledge to the assigned problems and solve them autonomously with the help of the "largest knowledge base in the world", the Internet.
- The final results will be presented and discussed in the presentation week.

FORM OF LECTURE

- This lecture will be held in a blocked form. The participants will get assignments which need to be solved autonomously in small teams.

MEANS OF COMMUNICATION

To improve the lecture-related communication e-mail list WISE2009W will be created. At the beginning of October you are expected to subscribe to these lists via the Internet::

<http://alice.wu.ac.at/mailman/listinfo/wise2009w>

Upon successful subscription you can send e-mails to wise2008w@wi.wu.ac.at which will cause it to be delivered to all subscribed persons.

You should use this list for any questions, pleas for help and discussions that you may have. It is expected that students actively help their colleagues with answers via the list.
